---

## CAREER OBJECTIVE

I'm a Computer Science Engineer working as a Database Developer. I'm looking for an opportunity that best suits my skills in an organization where I can gain knowledge and face new challenges.

## PROFESSIONAL EXPERIENCE

### **Epsilon, Bangalore** — *Database Developer 2*

JULY 2017 - PRESENT

- **Abbvie AWS Migration** - (Shell Script, PL/SQL)
  - ◆ Integration of all the Environments together, going from physical servers to AWS.
  - ◆ Worked on Automation of the campaigns without manual Intervention of the support team.
- **Hot-topic** - (Shell Script, PL/SQL)
  - ◆ Worked mostly on creating new packages and triggers to segregate consumer data.
- **Boehringer Ingelheim** - (Shell Script, PL/SQL)
  - ◆ POC Developer to manage the project.
  - ◆ Worked on creating triggers as part of automation to reduce the manual work of the support team.
  - ◆ Worked on enhancement of shell scripts for better performance and time saving.
- **Abbvie** - (Shell Script, PL/SQL, XML)
  - ◆ Worked on Performance tuning, batch job improvements.
  - ◆ Creating dynamic scripts for accommodating multiple brands.
  - ◆ Improving the time on web-service API calls from the backend.
- **Maurices** - (AWS Redshift, SnapLogic, Camunda)
  - ◆ Worked on enhancement of an In-House tool that converts an Excel file to JSON.
  - ◆ Worked on migrating large datasets for the client from their previous environment to Epsilon's environment.
  - ◆ Worked on building multiple workflows in Camunda as part of orchestration.
  - ◆ Worked on performance tuning which helped in efficient migration.
  - ◆ Worked on multiple snaplogic pipelines which were consumed by multiple projects within the organisation.
  - ◆ Worked on technical documentations which enabled a self-service for new associates in terms of environment set up and project understanding, Which was later on adapted by other projects within the organisation as well.

## PROJECTS

- **Cross-Platform GUI for Impress.js** - *Final Year Project* -UI Developer (HTML, CSS, MySQL)
  - ◆ A platform where one can create presentations using impress.js libraries without prerequisite knowledge of web-technologies, and control the presentation using Android Application.
- **Blood Bank Management System** - *Mini Project* - UI Developer (HTML, CSS, MySQL)
  - ◆ Web-based Blood Bank Management System dedicated to serving patients.

## ACHIEVEMENTS & RESPONSIBILITIES

- Finalists of the annual IEEE web development competition.
- Trained 3 colleagues to manage the Boehringer Ingelheim Project before I moved out.
- Reduced the time of 3 extracts from 6 hours in total to 10 minutes all together.
- Guiding newly joined colleagues with the basics on Snaplogic and Camunda.

## TRAINING

- In-house tool trainings in Epsilon : Agility Loyalty, Harmony, FRMS
- Front-End Libraries training on freeCodeCamp.
- Snaplogic bootcamp.
- Camunda.

## EDUCATION

### **The National Institute of Engineering, Mysore** — 2013 - 2017

B.E (Computer Science & Engineering) - 8.31(CGPA)

### **St. Philomena's PU College, Mysore** — 2011 - 2013

12th - 82.67%

### **Baden Powell Public School, Mysore** — 2011

10th - 7.6(CGPA)

## HOBBIES & INTERESTS

- Watching and playing sports - Cricket, Football, Snooker, Formula 1
- An avid reader.
